P2I100290	IMPACT BAG The Impact Bag provides visual feedback on the quality and accuracy of impact. All you have to do is line up and swing, then take a look at the angle of the proprietary target map to see how you did. If your swing was true, the bag will remain aligned. If your swing missed the target or hit it a skewed angle, the bag will retain the depression for further analysis. On the whole, the bag helps eliminate fat and thin shots and cure slices.			The image shows the Impact Bag, a black and red training aid, in two positions. At the top, it is shown from a top-down perspective, revealing a red target map with a black 'PURE' logo in the center.
