ZEROFIT MOVE

- Zerofit Heatrub Move - Premium and Advanced Baselayer
- Ultra-Fast Wicking - Repels moisture from the body to the outer shell fabric where it dries ultra-fast
- The unique 'LABO' fabric ensures that sweat is quickly removed from next to the skin and placed on the outer shell of the garment
- Zerofit labo is constructed with 45% polypropylene which is an extremely unique material - its significantly lighter than polyester, nylon and water! Thus providing more warmth for less weight
- Polypropylene fibres retain more heat for a longer period of time, have excellent insulative properties in apparel and combined with its hydrophobic nature keeps the wearer dry and warm
