ABOUT SKYMAX

'Affordable performance' is the motto off Skymax Golf. Drivers, Fairway woods, Hybrids, Irons, Wedges and Putters are available in different loft, lie and bounce. Also available with thicker or thinner grips, and different shaft flexes to suite your swing. Skymax is a perfect brand for golfers who are searching for durable and high-quality golf gear. Skymax uses high-quality components and the latest technologies.

Skymax Golf proofs golf gear does not have to be very expensive. Skymax Golf is founded in 1998 in Luton, Great Britain, by 3 men. Their goal was to produce high-quality and affordable golf products, and they managed to do so. For example the Skymax Ice IX-5 set, are extraordinary golf sets. The Ice collection contains a variety of Drivers, Woods, Hybrids, Wedges, Putters, complete sets, half sets and Irons.

Since 2011 the Ice-series is available in a full set and half set box at an excellent price. Full sets can be delivered with a cart bag or stand bag. Skymax keeps their bag and trolley designs up-to-date and fresh every season. Skymax Golf is expanding as a brand but still keeps the affordable performance motto in mind. You can follow Skymax Golf on Twitter to keep up with the latest developments and designs.

## SKYMAX ICE IX-5 PITCHING WEDGE SAND WEDGE OF LOB WEDGE

### Skymax Pitching wedge:

The Skymax pitching wedge has a loft of 52 degrees by which you can make a stroke of 60-100 meters. But also indispensable for chipping towards the green.

### Skymax Sand wedge:

The Skymax sand wedge has a 56 degrees loft. The sole of the wedge is round and therefore ideal for a stroke in the bunker.

### Skymax Lob wedge:

The Skymax lob wedge has a 60 degrees loft, and is a great add to your golf set. This club is mainly used for short high strokes. Imagin a bunker between you and the green, and you need to get the ball on the green. In this situation you can use the lob wedge. The Skymax lob wedge is a great club and essential in your golf set.

### The Skymax Ice IX-5 wedges are available in:

- Pitching wedge 52°
- Sand wedge 56°
- Lob wedge 60°
- Right handed
- Gunmetal finish, 431° SS
- Precision milled grooves
- True Temper steel shaft regular flex

SX7000160 - MRH 52° Wedge steel  
SX7000161 - MRH 56° Wedge steel
